

Phantom Power Products Manufacturer's Warranty Effective January 2011

Phantom Power Products ("PPP") warrants their products against defects in materials and workmanship under normal use for the period of **ONE (1) YEAR**, from the date of retail purchase by the original end user purchaser (Warranty Period).

If the product has been installed by PPP or an Authorised Service Provider ("ASP") approved by PPP, the date of warranty extends from the date of installation.

If a valid claim is received within the Warranty Period, at its option and to the extent permitted by law, PPP will provide unlimited exchange replacement parts during the Warranty Period, subject to the following conditions:

- This warranty excludes malfunction caused by normal wear and tear, improper installation, misuse, abuse, negligence, accident or alteration by any person.
- The replaced part must be returned to the manufacturer within thirty (30) days or said parts will be charged at retail cost.
- Transport costs associated with the repair or replacement of any parts shall be borne by the claimant
- Any repair work is to be carried out by PPP or a PPP approved repairer

When a product or part is exchanged, any replacement item becomes your property and the replaced item becomes PPP property. Parts provided by PPP in fulfilment of its warranty obligation must be used in products for which warranty service is claimed.
